## MALTA

Over the last two decades, Malta has established itself as an innovative and reliable financial services centre, hosting a variety of financial services businesses and structures including fund managers, fund administrators, forex brokers, payment services providers, investment advisors and insurance principals.

The Malta Financial Services Authority (MFSA) is responsible for the licensing, regulation and supervision of investment services providers operating in and from Malta and it is the Island's single regulator for financial services. Undertakings for the Collective Investment in Transferable Securities (UCITS) are liquid and transparent funds which satisfy the legal and regulatory requirements of the EU UCITS Directive. UCITS Funds are able to be marketed and distributed freely across Europe without requiring additional licensing in other EU member states.

## LEGAL BASIS

The principal legislation governing UCITS in Malta is the Investment Services Act, 1994 (ISA) as subsequently amended.

## LEGAL FORM

The local legal regime allows UCITS to be established using a variety of legal forms, each having characteristics suited for particular needs. In fact a Maltese UCITS may be set up as:

- An investment company with variable share capital (SICAV) in terms of the Companies Act.
- A limited partnership whose capital is divided into shares in terms of the Companies Act.
- A unit trust in terms of the Trust and Trustees Act.
- A contractual fund in terms of the Investment Services (Contractual Funds) Regulations.
